

SW Model Show – A Report

Bovington Tank Museum February 26

BMFA were represented here for what is now the tenth year of our twice-yearly attendance at this show – we are still the only stand representing RC aircraft modelling and flying.

Principally organized and supported by Chesil MFC with help from other local clubs and BMFA Southern Area, the stand is positioned where it is seen by all visitors entering the Museum. Visitors over this weekend numbered **3726**.

As ever, the model flight simulator was very popular with the kids (and their parents!). This a good recruiting tool to tempt younger people into the hobby, both new members and those returning.
